December 2nd, 2023 in Puchenu: no train reaches the platform. tracks full of white happiness. filmed with the Nokia 3310 (2017).

The sound is made from the Twink Peaks Archive YouTube video, which is over 5 hours long with music from the show. I downloaded it and put it on the Nokia, for the video I played it over the amstrad studio 100 and recorded it with the built-in microphone of my MacBook.
